Few High Grade Cattle--- Market Slow and in Buyer's Favor.

HEAVY HOGS ARE IN BETTER DEMAND

OFFICE OF PITTSBURG DISPATCH, P. WEDNESDAY, March 6, 1889. Supplies of cattle for the local trade has been between 75 and 80 carloads this week, or a dozen loads more than last week, and and was actually in conjunction with other capers from Chicago were less than for several weeks past. The total from that point footed up about 40 loads. Markets for heavy cattle have been very slow for some time, and the result is seen in the fact that very few heavyweights are coming to the front. In the 75 to 80 loads received at Liberty this week there were scarcely any cattle weighing over 1,400. A leading stockman reports that he saw nothing above that figure. Some 3 or 4 loads of stockers weighing from 800 to 1,000 were among the receipts and brought better prices than they would have as many less than the week before. Rebrought better prices than they would have lone for a week or two past. A few bunches of the best, weighing 1,000, sold at \$3 40, with \$3 00 as the lowest. After an addition of 200 pounds weight to these stockers, they will pounds weight to these stockers, they will ngain be ready for markets in July. The best selling cattle were those ranging from 1,200 to 1,300. The range of prices was \$3 80 to \$4 00. Very few reached the latter price. Last week better prices were paid, but the grade was then much better. As high as \$4 55 was paid a week ago for a load of extra fine cattle weighing 1,700 pounds. Nothing in this week's supplies showed anything like the quality. For the grade of cattle on hand this week markets are a fair stand-off to last week.

The attendance of country buyers was larger this week than for some time back, and everything was well cleared up to-day.

## LEGITIME IS VICTORIOUS.

News From Hayti Indicates That He Has Hippolyte on the Run.

NEW YORK, March 6.-The steamer Andes arrived from Haytian ports this morning. The purser, Frank Darinis, says the Andes was at Port-au-Prince on February 4. The day before this had been a grand review of Legitime's troops and much jollification because of the recent ictories over Hippolyte's rebels. The Legitime forces had won signal victories in the provinces of the North and had driven the rebels back all along the line. At Grand Saline there was a battle fought, and Gen-eral Jean Misere was taken prisoner, but

was released on parole.

There were no executions because Legitime did not wish to alienate any of his countrymen by harsh measures. The Hippolyte forces were driven back through the Marmalade district as far as Ennery, and Hinche was taken, as were St. Michael, Valliere and St. Suzanne.
"I wish to deny," said the purser, "the

report that the commander of the Legitime report that the commander of the Legitime warship Belize had been poisoned. I saw him alive and well in command of the ship. The report to that effect was sent by Hippolyte over the cable at Nicholoss Mole. So also was the story about the massacre of Legitime's generals and soldiers. Legitime has all the navy and the larger part of the has all the navy and the larger part of the country. No United States men-of-war were seen during the voyage.

## MURDERED IN HER BED.

An Awful Crime Committed by an Unknown Fiend in the Night.

TROY, N. Y., March 6 .- Catherine Tay for, widow, about 50 years of age, was 9:30 o'clock last night. She was struck on the head by an ax, a terrible wound being inflicted. One of the fingers of her left hapd was cut off as if she had tried to stop the blow. The assassin is unknown. A son. William, 25 years of age, is under police surveillance.

The weapon has not been found. An ax is missing from the cellar of the house, and it is believed that it was taken for the same and the State.

Hog Products Active. CHICAGO-Only a moderate business was transacted in wheat to-day and the feeling was unsettled. Finctuations were not violent, but frequent, within 1% range for the day. The opening for May was 1@1½ c lower than yesterday, which was the inside price of the day radied with numerous fluctuations. 15%c, declined 3/c, recovered 3/c and closed about 5/c higher than yesterday. July ruled

steadier and after opening %c lower advanced %c and closed the same as yesterday.

There was nothing new in the situation, and a mystery still surrounds the trade which operators are unable to decipher. The im-pression prevails that one of the large bull traders had sold out his holdings, but whether this operation merely represented a side issue and was actually in conjunction with other bull houses, it is difficult to say. There was

yesterday.

The market for hog products was the center of speculative attraction and trading was quite brisk. Mess pork opened at 12½@lbc advance, but this was partially lost. A GREAT IRON MINE Discovered Along Water Street and

AN INCIDENT OF THE BIG FIRE Petroleum Takes a Tumble and Demoralizes Both Bulls and Bears.

How it Came to be There.

MONEY AND STOCKS BOTH IN THE DUMPS

There is an iron mine on Water street. How it came to be there was told to THE DISPATCH representative yesterday by one of a very few gentlemen who know of its existence. The great fire of 1845 swept Water street from Ferry to Grant. At that time nearly all of the iron mills of the city had extensive warehouses on that thoroughfare. When the fire broke out they contained large quantities of all descriptions of manufactured iron, nails and glass, which t was impossible to remove on account of their great weight.

The fire ate its way up the street with such resistless energy that nothing could check its progress. All that the people could do was to stand idly by and watch the destruction of property. Block after block yielded to the flames and were in a few hours reduced to ruins. The great iron nearly all of the business interests of the city. When the fire had subsided and the ruins cooled sufficiently to permit of investigation, it was found that the intense heat had fused the iron, nails and glass into solid masses. The glass was removed to the factories, and re-melted, but the iron could not be disposed of for removal, and to separate the masses by cuting would cost more than raw iron was worth. How to get it out of the way so as to permit of clearing away the debris preparatory to rebuilding was a problem that puzzled many an Finally, after various methods had been pro-

posed, it was decided to dig trenches or holes in the bottoms of the cellars, and bury the iron in them. This was done, and there it is to this day-hundreds of tons of it-covered by the buildings, which superseded those lestroyed by the fire, and as effectually elimnated from industrial uses as if it were at the bottom of the ocean. Its money value is estinated at half a million dollars.

## ARTIFICIAL WEAKNESS.

The Depressed Condition of Stocks At-

tributed to Lack of Orders. With the exceptions of Electric, Switch and Signal and Citizens' Traction, the stock market yesterday was without a redeeming feature. The stocks indicated were both higher and active. The depression is attributed on all hands to a lack of orders, and not to inherent weakness of the securities, many of which sell under their intrinsic value, to say nothing of prospec-tive improvement when the enterprises which they represent shall have been fully developed. The condition is one of artificial weakness, which a few good buying orders would relieve. Bids and offers were:

We always have an excess of cash at this season of the year to meet the usually large spring demand of merchants and manufacturers and to assist the farmers to make necessary improvements and to get in their crops. A bank that never has any surplus money on hand might as well go out of business. If the idle funds that we hear so much about were specially detrimental to our interests, we could soon get rid of them by reducing rates to borrowers. Dollar Oil Becoming a Very Remote Possi-

There were a few spurts of strength during the day, but the receding tide was too strong to be successfully stemmed. The initial quotation was 91%. This ruled for a few minutes, when 91% was recorded. A brief spurt sent the price up to 92%. The market then gradually weakened, and sold at 90%. The bulls then became desperate, and by main strength and awkwardness raised the figures to 91%. The market hung around this point until near the close, when it again weakened, and finished in a condition of demoralization and uncertainty, which completely nonplussed the trading element. There was considerable trading during the day, but it was mainly by professionals. One dealer said: "I want to do business, but I am afraid to go in lest I get squeezed. The Indian assaulted by these parties some days ago died Monday, and the father of the dead boy and the chief of the tribe have announced their intention to kill Clifford at all hazards. Major intention to kill Clifford at all nazards. Major Ronan, the agent, is attempting to prevent the Indians from carrying their threat into execu-tion under promise of arresting Clifford and Cunningham, and letting the law take its course. Warrants will be issued for the men. -E. S. Tuley now occupies the office of Assistant Postmaster at Louisville, Ky., under Postmistress Thompson, having been installed at noon yesterday, when Charles P. Weaver turned over to him the affairs of the office. The Assistant Postermastership seems to be The Assistant Postermastership seems to be Mrs. Thompson's banner of allegiance. Under Democratic rule she takes a Democrat as licutenant, and keeps him there until the Republicans get possession. Then in goes a Republican. Mr. Tuley was first appointed to his office 25 years ago, and has held it continuously since, except during the brief period when the office was filled by Mr. Weaver.

Pittsburgers Interested in a New Company

at Fairport. The Pittsburg, Fairport and Northwest Dock Company has applied for a charter. The Pittsburgers interested in it are H. W. Oliver, Jr., and F. L. Robbins. The capital stock is \$300,000, and about \$50,000 of this has been paid in. The company has leased a dock at Fairport on the lake, and are having built a new lake steamer to carry

ooal, ore, etc.

It will have an improved elevator for hoisting, and it will effect a great saving of time and labor.

Our little girl when but three weeks old broke out with eczema. We tried the prescription from several good doctors, but without any special benefit. We tried S. S. S., and by the time one bottle was gone, her head began to heal, and by the time she had taken six bottles she was completely dured. Now she has a full and heavy head of hair—a robust, healthy child. I feel it but my duty to make this statement.

OFFICE OF THE PITTBURG DISPATCH, WEDNESDAY, March 6, 1889. Country Produce-Jobbing Prices. The week, so far, shows a slight improve-nent in tone of trade over what we have had for a month or two past. And still there is room for large advance before produce trade is satisfactory. There is a very active movement in butter, which dealers charge to the gloomy outlook for oleomargarine. Full cream cheese is steady, but has not gone up as it usually does bout the beginning of Lent. Buyers of Swiss theese will find markets in their favor, as fac-

tories are overstocked and there is a general disposition to unload before new crop comes in.
